Spring Bank Primary School

FEEDBACK & MARKING POLICY 2021

At Spring Bank, we recognise the importance of feedback as part of the teaching & learning cycle, and aim to maximise the effectiveness of its use in practice. We are mindful also of the workload implications of written marking and of the research surrounding effective feedback.

Our policy is underpinned by the evidence of best practice from the Education Endowment Foundation and other expert organisations. The Education Endowment Foundation research shows that effective feedback should:

- redirect or refocus either the teacher's or the learner's actions to achieve a goal
- be specific, accurate and clear
- encourage and support further effort
- be given sparingly so that it is meaningful
- provide specific guidance on how to improve and not just tell students when they are wrong

Notably, the Department for Education's research into teacher workload has highlighted written marking as a key contributing factor to workload. As such, we have investigated alternatives to onerous written marking which can provide effective feedback in line with the EEF's recommendations, and those of the DfE's expert group which emphasises that marking should be: **meaningful, manageable** and **motivating**. We have also taken note of the advice provided by the NCETM (National Centre for Excellence in Teaching Mathematics) that the most important activity for teachers is the teaching itself, supported by the design and preparation of lessons.

Key Principles

Our policy on feedback has at its core a number of principles:

- the sole focus of feedback and marking should be to further children's learning;
- evidence of feedback and marking is incidental to the process; we do not provide additional evidence for external verification;
- all pupils' work should be reviewed by teachers at the earliest appropriate opportunity so that it might impact on future learning. When work is reviewed, it should be acknowledged in books.
- feedback delivered closest to the point of action is most effective, and as such feedback delivered in lessons is more effective than comments provided at a later date;
- feedback is provided both to teachers and pupils as part of assessment processes in the classroom, and takes many forms other than written comments;
- feedback is a part of the school's wider assessment processes which aim to provide an appropriate level of challenge to pupils in lessons, allowing them to make good progress.

Within these principles, our aim is to make use of the good practice approaches outlined by the EEF toolkit to ensure that children are provided with timely and purposeful feedback that furthers their learning, and that

teachers are able to gather feedback and assessments that enable them to adjust their teaching both within and across a sequence of lessons.

Feedback and marking in practice

It is vital that teachers evaluate the work that children undertake in lessons, and use information obtained from this to allow them to adjust their teaching. Feedback occurs at one of three common stages in the learning process:

1. Immediate feedback – at the point of teaching
2. Summary feedback – at the end of a lesson/task
3. Review feedback – away from the point of teaching (including written comments)

The stages are deliberately numbered in order of priority, noting that feedback closest to the point of teaching and learning is likely to be most effective in driving further improvement and learning, especially for younger pupils. As a school, we place considerable emphasis on the provision of immediate feedback. Where feedback is based on review of work completed, the focus will often be on providing feedback for the teacher to further adapt teaching.

At Spring Bank, these practices can be seen in the following practices:

Type	What it looks like	Evidence (for observers)
Immediate	<ul style="list-style-type: none"> • Includes teacher gathering feedback from teaching, including pupil whiteboards, book work, etc. • Takes place in lessons with individuals or small groups • Often given verbally to pupils for immediate action • May involve use of a teaching assistant to provide support or further challenge • May re-direct the focus of teaching or the task • May include highlighting/annotations according to the marking code. 	<ul style="list-style-type: none"> • Lesson observations/learning walks • Some evidence of annotations or use of marking code/highlighting
Summary	<ul style="list-style-type: none"> • Takes place at the end of a lesson or activity • Often involves whole groups or classes • Provides an opportunity for evaluation of learning in the lesson • May take form of self or peer assessment against an agreed set of criteria. (Any marking/editing completed as a result of self/peer assessment must be written in purple pen by the pupil themselves. Peer assessment must then be signed by the other pupil.) • In some cases, may guide a teacher's further use of review feedback, focusing on areas of need 	<ul style="list-style-type: none"> • Lesson observations/learning walks • Timetabled pre- and post-teaching based on assessment • Some evidence of self and peer assessment

Review	<ul style="list-style-type: none"> • Takes place away from the point of teaching • May involve the use of a Whole Class Feedback sheet to share with the class • May involve written comments/annotations for pupils to read/respond to • Provides teachers with opportunities for assessment of understanding • Leads to adaptation of future lessons through planning, grouping or adaptation of tasks • May lead to targets being set for pupils' future attention, or immediate action 	<ul style="list-style-type: none"> • Acknowledgement of work completed (ticks/LO/stickers) • Whole Class Feedback sheets • Progress in books – either in immediate editing or the next task, as appropriate • Adaptations to teaching sequences tasks when compared to planning • Use of annotations to indicate future groupings

Marking Code

Where written marking or annotations are appropriate, the intention is that minimum teacher time should lead to maximum outcomes. One way in which we achieve this is through the use of our marking code below. Marking must be in green pen using modelled Spring Bank handwriting.

<p style="text-align: center;">✓ Correct</p>	<p style="text-align: center;">X Incorrect</p>	<p style="text-align: center;">• Please check this</p>
<p style="text-align: center;">? What do you mean?</p>	<p style="text-align: center;">ST Supply Teacher</p>	<p style="text-align: center;">LO Learning objective achieved</p>
<p style="text-align: center;">WS Completed with support</p>	<p style="text-align: center;">* The best parts of your learning</p>	<p style="text-align: center;">→ Next steps for improvement</p>

Monitoring

Subject Leaders and/or SLT will sample the work in books for their area of responsibility focusing upon editing, improvements, and progress and high expectations as indicators that feedback is being successfully used to move learning on. In addition, there will be regular occasions (half-termly) where staff review subject books together within CDP staff meetings, with the same focus.

Use of TAs

TAs and HLTAs need to be aware of the marking policy and follow this when teaching a class, or working with particular groups within the classroom. Teaching assistants live mark work alongside children and teachers manage and train TAs to ensure this is part of regular practice.
